

Elvis Ezimako Nzubechukwu

Junior Network Analyst

Lagos, Nigeria • (+234) 806 193 6064

ezimakoelvis@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Adaptable IT professional with a strong technical foundation and a focus on networking and infrastructure. Quickly masters new systems and tools, remains calm and meticulous under pressure, and converts complex technical problems into clear, actionable solutions for both technical and non-technical stakeholders. Proactive and a collaborative team player who takes ownership, drives efficiency, and consistently delivers measurable value.

RELEVANT WORK EXPERIENCE

TotalEnergies, Lagos, NG.

March 2025 - August 2025

IT Support Intern

Rotated across multiple units within the Information Systems & Technology (IST) department, gaining hands-on exposure to end-user support, enterprise networking, telecommunications, and infrastructure operations.

- **Networking & Telecommunications:** Assisted in configuring and troubleshooting Cisco switches, including VLAN segmentation and basic routing; supported firewall configurations and network security policies; maintained enterprise telephony/VoIP systems; performed structured cabling work including crimping, termination, and patch panel management in line with networking standards.
- **End-User Support & Systems Administration:** Deployed, staged, and decommissioned end-user devices (desktops, laptops, peripherals); logged and resolved support tickets via ServiceNow, diagnosing and resolving hardware/software issues to maintain SLA-aligned service delivery.
- **IT Infrastructure & Data Management:** Gained hands-on exposure to database administration fundamentals, tape library and backup systems, and enterprise data handling/storage practices, supporting data integrity and business continuity objectives.
